

## ROLL STABILITY FOR DANGEROUS GOODS TANK TRAILERS

From **1 January 2019** all heavy vehicle dangerous goods tank trailers used in NSW must have a functioning roll stability system (RSS).

It will be unlawful to:

- Operate, drive, load; and/or
- Consign in

a dangerous goods heavy vehicle tank trailer without RSS.

To identify if RSS is fitted – Look for the **EBS Data Sticker** on the trailer.

For more information:

<http://www.epa.nsw.gov.au/your-environment/dangerous-goods/>

**NOTE:** Vehicles not fitted with RSS can still lawfully be loaded with diesel (only) and other non-dangerous goods
